## CREATE YOUR OWN DREAM BOAT

### MATERIALS

- boat template (in your kit)
- paper straws (in your kit)
- string (in your kit)
- origami paper (in your kit)
- stickytape, scissors, texas

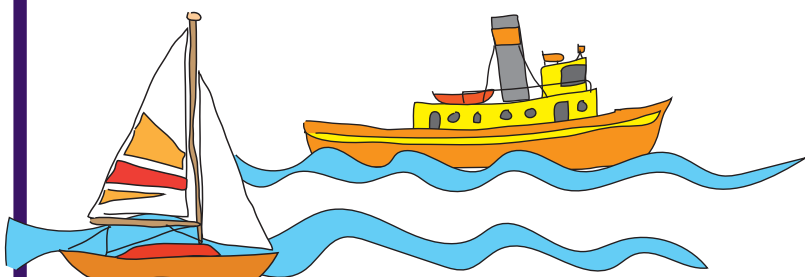

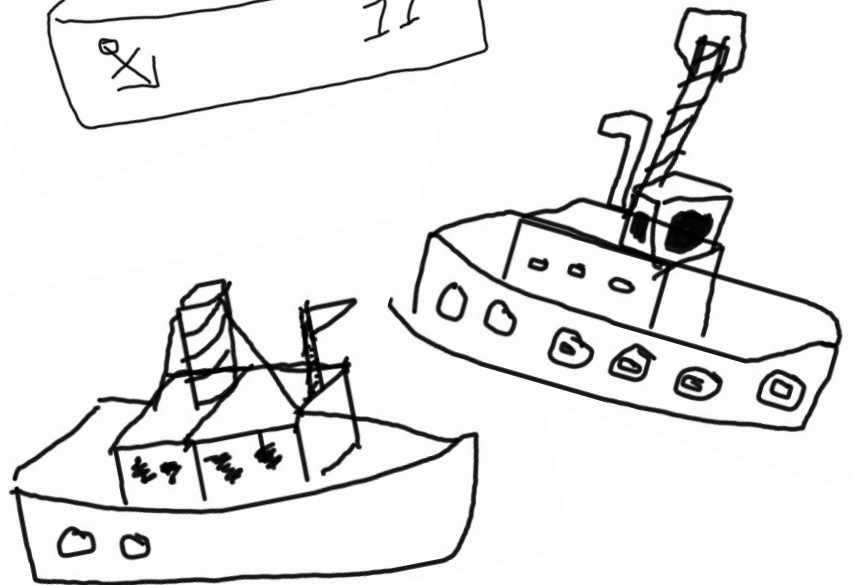

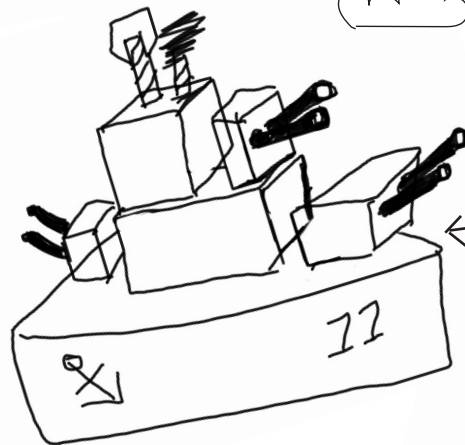

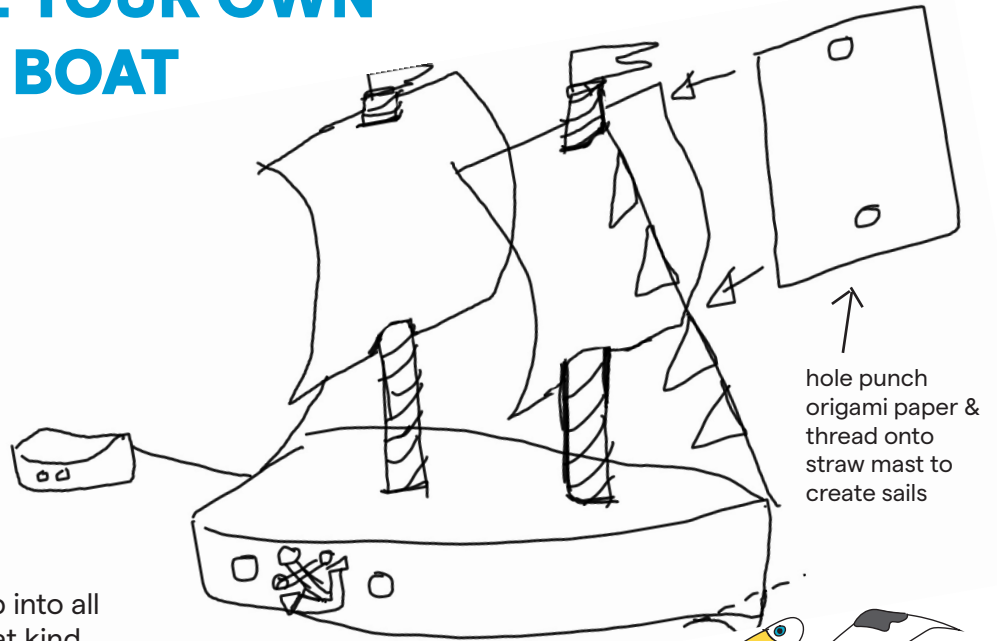

### INSTRUCTIONS

This boat template can be made up into all kinds of vessels, so first decide what kind of boat do you want to make? A tugboat? A tall ship? A battleship? A yacht? See the illustrations here for some examples of how the pieces can go together to create different shaped boats.

1. Decorate and fold together the big boat base and the upper levels you want to use. Fix them together with stickytape at the edges.
2. Use the straws to add masts, funnels or periscopes to your boat. Use the string to add bunting flags and ratlines. If you're making a tallship or warship, don't forget to add the pinnace (mini boat) at the back using the string.
3. Add sails, flags, anchors and decorative touches.

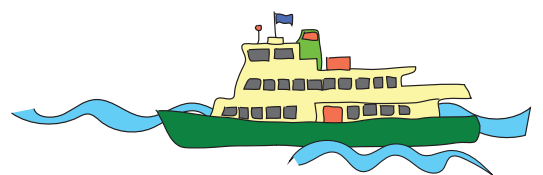

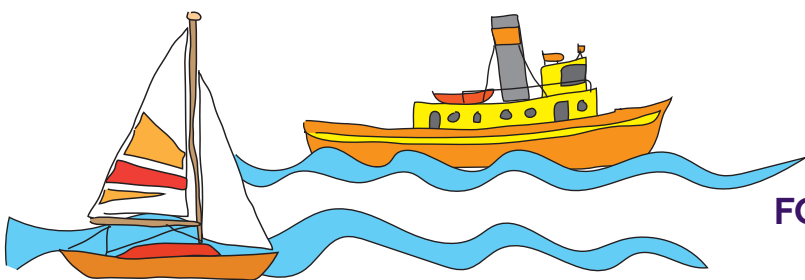

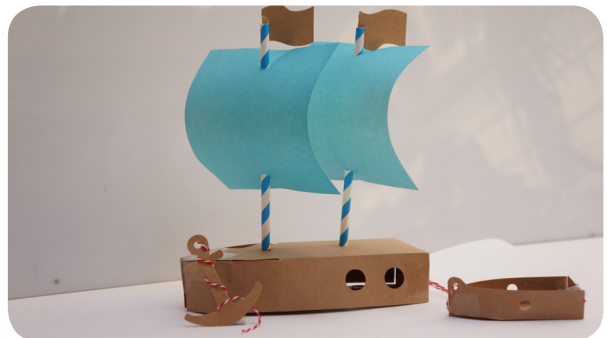

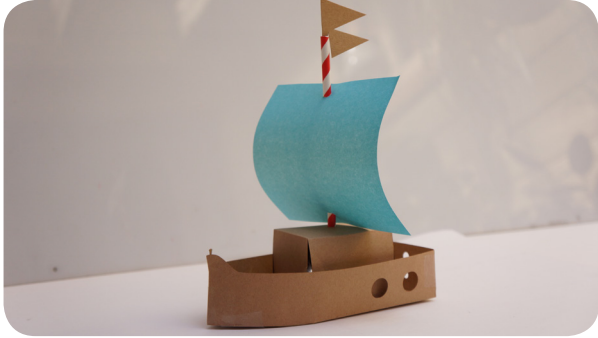

**Ships Ahoy! What a spectacular boat you've created!**

We'd love to see your photos. You can share with us by tagging [@sea.museum](#) or emailing [web@sea.museum](mailto:web@sea.museum)
